

Assignment #7 contains several textbook problems from Chapters 6 and 7. Here are the assigned problems from the textbook.

From chapter 6, problems 6.29, 6.31, 6.40, 6.45, 6.52

From chapter 7, problems 7.6, 7.10, and 7.19.

There are 8 problems, so this assignment is worth 40 HW points. If you feel challenged by these problems, I encourage you to do additional problems on your own. I suggest choosing extra problems with answers in the back of the textbook.
