

The easiest way to get to my office (H6/536) in the **Clinical Science Center** (commonly known as “UW Hospital”), is through the Clinics Entrance (which will automatically put you on the second floor). Walk straight ahead down the hall, *then bearing right*, proceed directly to the H module, and take the elevator up to the FIFTH floor. When you exit, enter the **H6** module (*not* the H4 module on the opposite side), and find room 536. The main office of the Department of Biostatistics and Medical Informatics is K6/446 (module K6, fourth floor); mailboxes are to the immediate right.
