

**Exam Schedule and Homework Assignments, Statistics 301, Lectures 3 and 5 (Wardrop),  
Fall Semester 2007**

Exam	No. of Points	Day, Date, and Time
Midterm (Lec. 3)	56	Thursday, October 25, 12:50 PM–2:15 PM
Midterm (Lec. 5)	56	Thursday, October 25, 5:50–7:15 PM
Final (Lec. 3)	84	Tuesday, December 18, 10:05 AM–12:05 PM
Final (Lec. 5)	84	Saturday, December 22, 12:25 PM–2:25 PM

The midterm will cover material from Chapters 1–3, 5 and 6 of the text. The final will cover material from Chapters 7, 12, 15, 16, 8, and 13 of the text. **The locations of the exams will be announced in lecture.**

There will be a review before each exam. Each review will be during an extra class meeting. The details for selecting the times of the reviews will be given later, but note that there will be student input into the selection of times and that for each exam there will be three 90 minute reviews.

The exercises listed below in the column labeled *Homework* are to be submitted for grading. If you can successfully complete: all exercises listed below in both columns and the *Practice Exam Questions* from my webpage, then you should be well prepared for the exams. Problems below come from three sources: **T**, the text; **C** the course notes; and **E** extra homework. The course notes (**C**) and extra homework (**E**) are on my website.

In discussion the TA will present solutions to the homework exercises and, if time permits, answers to the practice exercises.
