

**Homework Assignments, Statistics 301, Lectures 1, 2 and 6 (Wardrop),
Spring Semester 2008**

The exercises listed below in the column labeled *Homework* are to be submitted for grading. If you can successfully complete: all exercises listed below in both columns and the *Practice Exam Questions* from my webpage, then you should be well prepared for the exams. Problems below come from two sources: **T**, the text; and **E**, extra exercises. The extra exercises document is on my website.

In discussion the TA will help you prepare for completing the homework exercises.
