

Contents

1	The Completely Randomized Design	1
1.1	Study Suggestions	1
1.2	Solutions to Odd-Numbered Exercises	3
1.3	Exam Questions	4
1.4	Solutions to Exam Questions	6
2	Hypothesis Testing	7
2.1	Study Suggestions	7
2.2	Solutions to Odd-Numbered Exercises	13
2.3	Exam Questions	13
2.4	Solutions to Exam Questions	17
2.5	More Mathematics	19
3	Approximating a Sampling Distribution	23
3.1	Study Suggestions	23
3.2	Solutions to Odd-Numbered Exercises	27
3.3	Exam Questions	27
3.4	Solutions to Exam Questions	30
3.5	More Mathematics	31
4	The Randomized Block Design	33
4.1	Study Suggestions	33
4.2	Solutions to Odd-Numbered Exercises	34
4.3	Exam Questions	36
4.4	Solutions to Exam Questions	38
5	One-Population Models	39
5.1	Study Suggestions	39
5.2	Solutions to Odd-Numbered Exercises	40
5.3	Exam Questions	41
5.4	Solutions to Exam Questions	44
5.5	More Mathematics	45
6	Inference for a Population	47
6.1	Study Suggestions	47
6.2	Solutions to Odd-Numbered Exercises	48
6.3	Exam Questions	50

6.4	Solutions to Exam Questions	53
7	Comparing Two Populations	55
7.1	Study Suggestions	55
7.2	Solutions to Odd-Numbered Exercises	55
7.3	Exam Questions	57
7.4	Solutions to Exam Questions	59
8	Two Dichotomous Responses	61
8.1	Study Suggestions	61
8.2	Solutions to Odd-Numbered Exercises	62
8.3	Exam Questions	64
8.4	Solutions to Exam Questions	67
9	Adjusting for a Factor	69
9.1	Study Suggestions	69
9.2	Solutions to Odd-Numbered Exercises	69
9.3	Exam Questions	70
9.4	Solutions to Exam Questions	72
10	One Multicategory Response	73
10.1	Study Suggestions	73
10.2	Solutions to Odd-Numbered Exercises	73
10.3	Exam Questions	74
10.4	Solutions to Exam Questions	76
11	Tests of Homogeneity and Independence	77
11.1	Study Suggestions	77
11.2	Solutions to Odd-Numbered Exercises	77
11.3	Exam Questions	82
11.4	Solutions to Exam Questions	83
12	Describing One Numerical Response	85
12.1	Study Suggestions	85
12.2	Solutions to Odd-Numbered Exercises	86
12.3	Exam Questions	88
12.4	Solutions to Exam Questions	91
13	Correlation and Regression	93
13.1	Study Suggestions	93
13.2	Solutions to Odd-Numbered Exercises	94
13.3	Exam Questions	96
13.4	Solutions to Exam Questions	99
14	Time Series	101
14.1	Study Suggestions	101
14.2	Solutions to Odd-Numbered Exercises	101
14.3	Exam Questions	101
14.4	Solutions to Exam Questions	102

15 Inference for One Numerical Population	103
15.1 Study Suggestions	103
15.2 Solutions to Odd-Numbered Exercises	104
15.3 Exam Questions	107
15.4 Solutions to Exam Questions	110
15.5 More Mathematics	112
16 Numerical Data from Two Sources	113
16.1 Study Suggestions	113
16.2 Solutions to Odd-Numbered Exercises	113
16.3 Exam Questions	117
16.4 Solutions to Exam Questions	118
